

Concluding Remarks

José Carlos Quadrado

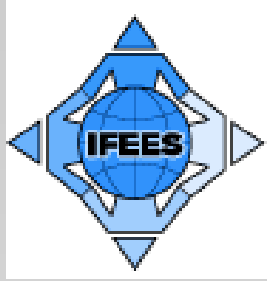

ISEL

Essential elements for sustainable economic and social development

- A country/region's **ability to innovate**, create and deliver
- **Human capital** and human capabilities that address local needs and compete in a global economy

Essential elements for sustainable economic and social development

- Government-Industry-University **partnerships** that integrate mutual interests to enhance national systems of innovation
- **ICT infrastructure** for effective communication, dissemination and processing of information

An aerial photograph of Cape Town, South Africa, taken from an elevated perspective. The image shows the city's urban sprawl, the harbor, and the prominent Table Mountain in the background. The sky is clear and blue. The text 'IFEES Summit' is overlaid in the center of the image.

What to expect in Cape Town?

Day 1 - Oct 19 - Summit - **IFEES "reaching out"** -

- focus on **best practices** and successful application to developing nations
- the panels should be designed **50% presentations 50% discussion** and include a policy maker

Plenaries Panels:

- 1 - Panels Area A: **Engineering Education Infrastructure**
- 2 - Panel Area B: **Research, Development & Entrepreneurship**
- 3 - Panel Area C: **Student Attractiveness & Success**
- 4 - Panel Area D: **Lifelong Learning**
- 5 - Parallel Session # 1: 4 Parallel Working Groups by Area

What to expect in Cape Town?

Day 2 - Oct 20 - IFEES "reaching in"
- focus on **challenges** faced by member societies with **opportunities** to collaborate by Strategic Plan Areas, and afterward by Region

Listening to Members that have challenges and are **seeking solutions/partnerships**, followed by open discussions.

International Federation of Engineering Education Societies (IFEES)

Thank you for supporting this [independent organization of leaders from various societies](#) speaking and acting on global engineering education.
